BURGLAR SENTENCED TO DIE FOR MURDER

New York, Aug. 9.—William Travis, burglar, is sentenced to die this week for the murder of Frank Jankewski, in Lakewood.

His final request is that out of the proceeds of a \$1,000 paid-up insurance policy on his life, under which his wife is the beneficiary, the expenses of a simple funeral be paid.

Concerning the insurance policy, there is no certainty that it will be paid. The agents maintain Travis misstated his occupation when applying for insurance and had they known he was engaged in the hazardous career of burglary, they would never have consented to accept him.

They further argue that death by legal execution was never contemplated when they entered into the contract.

Neither was injured, but the \$6,000 car was demolished by a locomotive.

HE SUGGESTS WHIPPING POST FOR WIFE-BEATERS

New York, August 9.—In passing judgment on a man charged with having blackened his wife's eyes, Chief Magistrate House declared in court the state needs a whipping post for wife-beaters.

"We also need something for the wives who are beaten," he continued. "From ten to fifty badly whipped wives come here daily for warrants for their husbands and then, when the brutes are arraigned, the women plead for forgiveness for them, refuse to prosecute and all I can do is to turn them loose."

PERIPATECTIC METHOD ARISTOTLE IS REVIVED

Chicago, Aug. 9.—The methods of Aristotle, founder of Peripatetic school of philosophy, have found their counterpart in Twentieth Century Chicago. And it is a group of Chicago women that has started the revival of the classic practices of ancient Athens.

Mrs. Raymond Robins, president of the Women's Trade Union league, is responsible for the innovation. Perceiving that meetings in stuffy halls in the dog days are likely to be ill-attended, Mrs. Robins sent out word

that yesterday's afternoon session of the league would be held in the open at Jackson park.

With about a score of her disciples, therefore, Mrs. Robins met at 3 o'clock at the German building, and, after the most approved manner of peripatetics, the group walked through the park, discussing problems of feminine philosophy.

THOUSANDS REACH ZION

SALT LAKE SO FAR IS ABLE TO ACCOMMODATE THE CROWDS.

Canvas Villages Are Being Built on the Vacant Blocks—Showers Predicted—Nevius Holds Reception.

The occupation of Salt Lake City by the Grand Army of the Republic is complete. Coming in overwhelming force from all directions the veterans have won every strategic position and command all communications. Their colors drape the walls and no man dares haul them down.

On the program this is the first day of the forty-third encampment; in practice it is a day of wholesale greeting. Special trains are unloading their thousands of passengers. An enthusiastic welcome for all and special receptions for officers of rank fill the hours. Edgar Allen, commander-in-chief of the Sons of Veterans, is among the day's arrivals.

He will be tendered a reception by his organization this evening. The National Association of Army Nurses found friends in countless numbers.

The first formal gathering was that of the Union ex-Prisoners of War who met in the Federation of Labor hall in Salt Lake at 10 o'clock. The national executive committee of this association will meet at the headquarters of the commander this evening.

White walled canvas villages are springing up in Salt Lake from the green sward of the parks and the boys of '61 will soon be playing the game of war under a softened form of military rule. Scanning the sky for clues the weather observers have discovered indications of showers and the most radical thermometers have been unable to detect an uncomfortable degree of heat. The beginning of the encampment, at least, finds the army fanned by cool mountain breezes and the summer sun in retreat.

There is magic about a five-pointed bronze star suspended by a tiny flag from a bronze bar which opens every door to its wearer, clears his path in a dense crowd and wins for him anew the homage that may have been forgotten at times through the long years. If he boards a street car the

magic emblem makes him invisible to the conductor; should he travel to the lake, or other resorts, the talisman blinds the gatekeepers and the ticket takers to his presence.

Salt Lake City is, for the time being, the Port of Missing Comrades. Momentarily the lost are found, hands long severed by distance and circumstance grow together, the years roll away and the reunited friends chatter again in the language of youth.

The railroads have poured their heavy passenger traffic in to Salt Lake with very few mishaps and those of a trivial character.

The veterans and members of affiliated organizations are outnumbered by the tourists and sight-seers. The arrivals Sunday were estimated at 6,000. All have been accommodated without difficulty and there is still a large supply of rooms upon which to draw.

Two campfires, one at Assembly hall in the Temple square and the other at the Armory, will be attended by the Grand Army members tonight.

This evening Commander Nevius, of the Grand Army of the Republic, his staff and officers of the allied organizations will meet visitors at a reception under the auspices of the Woman's citizens' committee in the Commercial club parlors, Salt Lake.

a registration book for each state, and each one contains the names of honored veterans who fought for their country's cause.

It is estimated that there are about 100 old soldiers in the city now, and more are coming on each train. As soon as they arrive they are assigned quarters in private homes or at hotels. Most of them will not go to Salt Lake until Wednesday—the day of the big parade.

"This town is good enough for me, and I intend to stay here as long as the authorities will let me," said a silver haired veteran wearing an Iowa badge this morning.

"I thought we would receive a cordial welcome in the west," continued the old soldier to a group of his comrades. "but I didn't think we would receive the ovations that we have all along the line. Ogden seems to be just trying to outdo herself to entertain us, too. Every one I meet has a kind word of greeting, and I'm beginning to feel as though I had known these people all my life. The town has been beautifully decorated in our honor, and we appreciate it all."

pected that his rescuer was a robber, and struck him in the face.

The attack was so unexpected that Rogers fell. Then the Chinaman kicked him several times in the side and ran away.

FALLS FROM CAR WHEN STRICKEN WITH APOPLEXY

Tacoma, Aug. 9.—E. A. Raymond, seventy-three years of age, a retired grocer, and pioneer of Waterloo, Iowa, visiting a sister here, was seized with apoplexy while on a street car Saturday night. He fell from the moving car to the pavement and sustained concussion of the brain. He is still unconscious and little hope is entertained for his recovery.

UNION DEPOT SCENE OF GREAT ACTIVITY DURING DAY.

Thousands on Their Way to the Encampment—Many Express Admiration for Ogden—More Coming.

The invasion of Utah by members of the Grand Army of the Republic continued without interruption all day Sunday, and today thousands of old soldiers moved on the state capital through Ogden from almost all directions.

Aside from the scattering delegations arriving on every train over the Southern Pacific and Oregon Short Line systems, there were six heavy special trains from the east over the Union Pacific and these carried Grand Army Veterans from the departments of Nebraska, Iowa, Missouri, Ohio, Massachusetts and Colorado. From nine to a dozen Pullman cars were attached to each train, and as the specials rolled up and were brought to a standstill in front of the big Union Depot the gray-haired heroes of the Civil War emerged from the cars by the hundreds and viewed with evident pride and satisfaction the handsome decorations in their honor displayed around about railroad headquarters and that section of the city.

Many of the patriots of '61 and '65 were accompanied by members of their family and, while time had left its harsh imprint on many of the old heroes, as a whole they were an active, vigorous, happy throng out for a good time and a pleasant week at the great annual encampment of the Grand Army of the Republic.

All of the special trains were held at Ogden from thirty to forty-five minutes, and, as the veterans, marched around the depot grounds in small groups, they were emphatic in their expressions of admiration of the city—or at least of those parts of Ogden which could be viewed from the passenger depot.
